PUBLIC PAYPHONE SIZE TELEPHONES

301/303 STAINLESS STEEL LARGE WALL HANDSET TELEPHONES

CEECO's stainless steel series are high quality keypad telephones that are designed to withstand vandalism and areas subject to fraud and abuse. Their imposing design and impressive durability often helps to deter vandalism. The high grade stainless steel finish makes them aesthetically pleasing yet effortless to maintain. and their tamper resistant chrome plated instruction window makes it accommodating for customers to add specific instructions for their users. These rugged telephones are equipped with an industrial grade steel armored cord and swivel for added strength along with a hearing aid compatible handset. The backplate is compatible with existing type "1" coin and payphone enclosures for easy replacement. Their impressive size and durability are easy to locate for your toughest security, prison, emergency, and public communication needs. These reliable phones are built to last and supported by over 80 years of experience.
